

A large, 3D rendering of the letters "JDC" in a bold, sans-serif font. The letters are primarily a light grey color with dark grey shadows on their right sides, giving them a three-dimensional appearance as if they are floating. In the bottom right corner of the image, there is a yellow rectangular object with some small, illegible markings or symbols on it. A dashed purple line is drawn across the bottom right area, intersecting the yellow object and the letters. The background is plain white.

A large orange number 3 is displayed prominently. Below it, there is a small technical diagram showing a cross-section of a structure with various layers and dimensions labeled.

A diagram of a red magnetic dipole, represented by two semi-circular arcs meeting at a central point. A dashed vertical line passes through the center of the dipole.
